X. Background of the conference

Health is an essential cornerstone for mankind's well-being and happiness. It is an important indicator of national prosperity and civilization. The burden of chronic diseases, such as obesity, diabetes, and cardiovascular diseases, is escalating worldwide, poses significant public health challenges. The resolution of the problems requires interdisciplinary and transnational cooperation, to help build a community of "Shared Future for Mankind".

During 2017–2024, the Xi'an Jiaotong University Global Health Research Institute (GHI), in collaboration with other leading institutions

from China and abroad, has successfully held five Belt & Road Initiative Global Health International Congresses. This conference will continue the tradition of fostering cross-disciplinary global dialogue and cooperation.
